

# Ethan Martinez

## Majors

Marketing &  
Management

## Aspirations

After I graduate, I plan to secure a professional marketing position with a sports company. Whether it's football, baseball, or basketball, I would be happy to find a job that I would look forward to and love showing up to every day.

## About Me

I was born in Ventura, California, and moved to Sparks when I was three. I love family, sports, and food in that order. I grew up playing and watching sports my whole life. I was a Laker, Dodger, and Raider fan before I even started talking. My main family lives in Reno, but I have tons of extended family in Southern California.

## Technology Background

I don't have a lot of technology background. I know the basics of Word, Excel, and PowerPoint, but I haven't explored too deeply into their more advanced features yet. But I do know my phone like the back of my hand and use social media apps daily. I have general knowledge of computers and everyday technology.

## Fun Facts

- I work at Outback Steakhouse
- I have a girlfriend named Bailey
- My favorite food is potatoes
- My favorite movie is Real Steel
- I'm a Pop Warner and High school football referee on the side
